

Shoplink – new features release 31.03.21

Shoplink Usability Improvements – all distribution centres – NDC, VC etc.

1. **Default Product Listing – Change to show promotion products first**
2. **Promotion Lines – highlight actual WSP in Bold/Strong – All Depots**
3. **Main Shopping Page – Colour Change to orange on Product not available**
4. **Multi-buy Mix & Match pop-up - display the BWG product code in the Name after the product description**

5. **Add a Delete Item to the 'Current Order' cart on the main shopping page.**

6. **Favourites - Retain shopping location when adding a Favourite.**

7. **Shopping Cart – Set Quantity to 0**

Customer feedback was on a large order, deleting a product caused a page refresh and this could be slow. Now you update a number of items to 0 and then select Update Cart – one page refresh for a number of changes.

8. **Enable fuzzy search by product key words**

Shoplink Functionality Improvements

9. **Scan/search by outer bar code** - useful for scanning case codes – All Depots
10. **Click and Collect Feature**– Wholesale, foodservice, licensed trade – all users
 - User selects Click & Collect and is presented with a text box to submit details – details are emailed to the relevant distribution centre.
11. **Order Instructions** – Wholesale, foodservice, licensed trade – all users
 - User can enter their order instructions in a text box - detail is emailed to the relevant distribution centre
12. **Value Projection Filter** – NDC Ambient, Bond, Chill
13. **Product Availability – Remove dependency on XML** – All Depots
14. **Product Availability – Out-Stock indicator** – Wholesale, Foodservice, Licensed Trade
